SUMMARY

Hi, I'm Denky — a UX/UI product designer with 20+ years of experience across enterprise B2B SaaS, cybersecurity, and edtech.

I build the infrastructure that makes good design repeatable at scale. My focus sits at the operational side of the practice: AI/UX governance, design systems, accessibility, and the frameworks that help design teams work consistently across orgs. At ZoomInfo, I evolved from product design into operational UX leadership — building training systems, audit tooling, pattern libraries, and accessibility frameworks that scaled across a 35-person design organization. The kind of work that doesn't always live in a case study but makes everything else more consistent.

I work closely with engineers, write in Markdown and YAML, and use AI-assisted tools including Claude Code as part of my regular workflow. I bring structure to ambiguity and repeatable process to emerging practice areas where no playbook yet exists.

Specializing in: AI/UX Governance · Design Systems · Accessibility (WCAG 2.2 AA) · DesignOps · Human-AI Interaction

EXPERIENCE

ZoomInfo

UX/UI Product Designer — AI Enablement & Workflow Infrastructure

UX/UI Product Designer — Design Systems & Accessibility

UX/UI Designer

Sep 2021 – May 2026

Jul 2025 – May 2026

Mar 2023 – Jul 2025

Sep 2021 – Mar 2023

- **Design Quality Engine (DQE)** — Architected and built an AI-assisted design review system from scratch. Modular guardrail framework across five domains: accessibility (WCAG 2.2 AA), usability, AI interaction patterns, content, and monetization. Outputs HTML reports, Markdown decision logs, and YAML findings for scalable design review. Sole creator. First pilot run hit 80% designer agreement on findings.
- **AI Training Portal & CHAI Framework** — Designed and launched the org-wide learning system that moved a 35-person design team from traditional UX practice into human-AI collaboration. 7 training phases, 8 AI Fundamentals modules with more total content than the original 14-module structure, 8+ recorded workshops. Coordinated presenters, ran moderation, and managed resource distribution for every session.
- **AIUI Pattern Library** — Led the foundational governance layer for AI interaction patterns across ZoomInfo's product surfaces — disclosure standards, processing states, and responsible AI design principles applied at the component level.
- **Design Hub** — Architected the organizational knowledge platform the entire design team uses for onboarding, process documentation, component repos, newsletters, and team navigation. Built on Google Sites with structured role-based navigation.

- Built and deployed a multi-platform design knowledge infrastructure: AI Training Portal (Vite, Netlify, repo-connected deployment), Design Hub (Google Sites), and portfolio site (Vite + React, GitHub Pages) — managing all repos, builds, and deployments independently.
- **Privacy Command Center** — Sole designer on the enterprise control center UI for managing data sharing permissions, consent settings, and opt-out controls — designed end-to-end from task analysis through final annotated specs.
- **Accessibility Leadership** — Authored WCAG 2.2 AA annotation packages across Admin Settings, AI Accounts, and corporate component library. Co-led Microsoft/MCAPS accessibility audit remediation with Software Engineering Manager Denis Levkov — managing compliance implementation across SalesOS to meet Fortune-level contractual requirements. Presented remediation progress directly to the third-party auditor.
- **DAAC (Data Access & Activity Controls)** — Co-led compliance UX for enterprise data access controls — including 3-level regional dropdown hierarchies, criteria/condition builders, data passport flows, and data passport control UI — through final annotated specs and dev handoff.
- Ran bi-weekly Design Open Hours and AI Open Hours programs, consistently hosting 10+ designers per session and connecting teams with engineering, accessibility, and design systems SMEs to resolve blockers.

RingLead (acquired by ZoomInfo, 2021)

UX/UI Designer

Senior Graphic Designer

Dec 2016 – Sep 2021

Jan 2020 – Sep 2021

Dec 2016 – Jan 2020

- Took ownership of product experience design as the platform scaled toward acquisition — designing customer-facing flows, dashboards, and data quality interfaces for a B2B SaaS data orchestration platform.
- **Duplicate health dashboards & field analysis tools** — Sole product designer on core data quality features; worked directly with developers and PMs through full design-to-release cycles.
- **ringlead.com** — Owned the full redesign of the marketing website — information architecture, visual design, and production.
- Built the visual identity, marketing systems, and digital presence from the ground up — brand system, sales enablement content library, event series (#talkdatatome), and Data Hero gamification campaign.
- Designed and produced digital campaigns, trade show materials, and product marketing content across organizational growth from startup through ZoomInfo acquisition.

Total Defense

2013 – 2016

Digital Designer — Consumer & B2B Cybersecurity Products

- Sole designer on the in-product activation wizard and Xfinity BotScanner powered by Total Defense in-product malware scanning experience — designed end-to-end from concept through dev handoff.
- Produced packaging, retail display systems, and large-scale conference materials for RSA and DEF CON.

CA Technologies (ISBU — Internet Security Business Unit)

2006 – 2013

Graphic Designer

- Supported digital and print design across CA's cybersecurity product portfolio over 7 years — websites, campaigns, datasheets, event collateral, and customer communications.

Earlier Experience

2001 – 2006

NSI International — Graphic Designer, Toy & Consumer Products (2004–2006) · Guarino Graphics & Design Studio — Design Intern (2001–2004)

SKILLS

UX DESIGN	Product design · Interaction design · Information architecture · UX research · Prototyping · Design QA
DESIGN SYSTEMS	Component documentation · Storybook · MUI · Design tokens · Figma libraries · Naming conventions
ACCESSIBILITY	WCAG 2.2 AA · ARIA · Keyboard navigation · Focus management · Name / Role / Value · Live regions · A11y annotation
AI / OPS	AI UX patterns · AI enablement · CHAI framework · AI governance · Claude Code · Prompt engineering · Design ops · Workshop facilitation · Guardrail authoring · NotebookLM · Markdown documentation · Multi-platform deployment
TOOLING	Figma · FigJam · Figma Make · Balsamiq · Miro · Storybook · GitHub · GitHub Desktop · GitHub Pages · Netlify · Vercel · VS Code · Claude Code · Slack · Slack Block Kit · JSON / YAML · Markdown · Google Sites · Notion · Confluence · Adobe CC

EDUCATION

New York Institute of Technology

BFA — Graphic Design, Fine Arts, Computer Graphics

COMMUNITY

North Shore Hispanic Chamber of Commerce of NY

Aug 2023 – Present

Secretary — organizational coordination, community initiatives, economic empowerment across the North Shore Hispanic community.
